Parish Fire Safety Initiative

St. Landry Parish Government will be giving away smoke detectors to anyone in the parish who needs one. Parish President Don Menard says, "Having at least one smoke detector increases the chance of survival and parish government wants every home to have at least one."

The parish wants to make sure all its citizens are protected, especially this time of year. Home heating equipment, cooking and carelessness are all causes of fires and with the cooler temperatures here, heaters are being turned on; which brings higher risk to fire dangers. The holidays are just around the corner and Christmas trees, lights and decorations will be adorning people's homes and with these added dangers everyone needs to have a working smoke detector.

The parish has approximately 800 smoke detectors available for free. For more information on how to obtain one, please contact Brandi Victorian at St. Landry Parish Government, at 337-948-3688.
